

# EQUITY INCOME PORTFOLIO

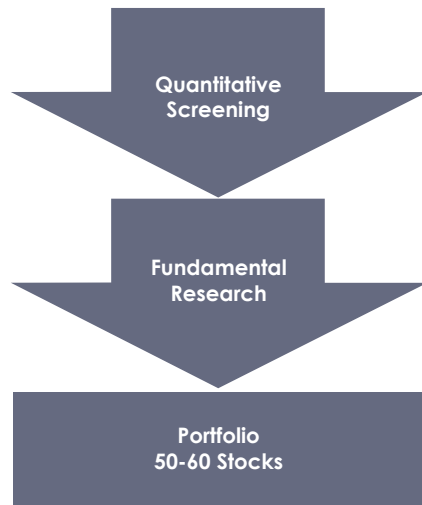

2ND QUARTER 2010

## Investment Objective

Invest in a diversified portfolio of common stocks that have yields greater than the S&P 500 and the potential for higher-than-average future dividend growth.

## Investment Process

- The stock universe will consist of large cap companies with yields at or above the S&P 500.
- Stocks are ranked based on dividend yield, a record of dividend growth, consistent dividend increases, and current fundamentals.
- The portfolio will hold 50-60 stocks, diversified across industry sectors relative to the S&P 500.

## Product Highlights

- Investment process focuses not only on current yield, but also on growth in the dividend income stream
- Product is benchmarked to the S&P 500
- Inception date December 31, 2004

Actual performance may be lower or higher than the performance quoted.

The "Firm" is defined as all investment advisory accounts managed by Glenmede Investment Management LP.

Glenmede Investment Management LP claims compliance with the Global Investment Performance Standards (GIPS®). A GIPS® compliant presentation, as well as a complete list of firm composites and performance, can be requested from Joe Shelly at 215.419.6009.

The Equity Income composite objective is to invest in a diversified portfolio of common and preferred stocks that reward shareholders with dividend income. Companies in the portfolio will be among industry leaders in dividend yield and possess the ability to raise the payout to shareholders over time. All fully discretionary Equity Income accounts with minimum market value of \$250 thousand are eligible for inclusion in this composite.

All returns are calculated in U.S. dollars and include the reinvestment of dividends, income and capital gains. Returns are shown both gross and net of investment management fees.

The Standard and Poor's 500 Index consists of 500 widely held common stocks. This unmanaged index is a total return index with dividends reinvested.

**One cannot invest directly in an index.**

**Alpha:** measures risk-adjusted performance against the relative benchmark. **Beta:** systematic risk of a portfolio; represents sensitivity to the benchmark. **Dividend Yield:** indicates income generated by a share of stock; shown here is the dividend yield on the securities in the portfolio, over the last 12 months, not the actual dividend yield of the portfolio. **Estimated 3-5 Year EPS Growth:** projected estimate of earnings per share growth over 3-5 years. **Excess Return (Gross):** amount that gross returns exceed relative benchmark return. **Excess Return (Net):** amount that net returns exceed relative benchmark return. **Information Ratio:** ratio of expected return to risk, as measured by standard deviation. **Price to Book (P/B):** ratio of stock price to per share shareholders' equity. **Price to Earnings (P/E):** ratio of stock price to earnings. **R<sup>2</sup>:** measures how much performance reflects the returns from the relative market. **Return on Equity (ROE):** net income divided by equity. **Standard Deviation:** measures dispersion of a set of data from its mean. **Tracking Error:** measures the active risk of the portfolio and the annualized standard deviation of the excess returns between the portfolio and its benchmark. **Weighted Average Market Cap:** total value of all outstanding shares weighted to reflect the portfolio's positions.
